VI. SCIL Updates:

- T. Matlin reported that there has Northern California CARL members have expressed interest in having SCIL be a state-wide interest group. CCLI has not been a part of CARL for some years. SCIL members voiced the following considerations:
  - D. Turnbow pointed out the geographic difficulty in Northern California that prevents large attendance at conferences.
  - Someone suggested helping NoCal CARL members form their own instruction interest group.
  - E. Galoozis suggested coordinated events occurring simultaneously in Northern and Southern California.
  - A. Sanchez suggested a pilot program.

- In response to a suggestion of a survey of Northern California CARL librarians, A. Carr remarked that previous survey attempts have had limited success.
- In response to suggestions of using technology to allow remote attendance at SCIL events to accommodate Northern California librarians, D. Turnbow pointed out that while universities would typically have access to such technology, community colleges would not. This would limit the potential event hosts to universities.
- Directors-at-large will email non-SCIL members to identify point persons for Northern California.
- SCIL Works 2015 will be hosted at West Los Angeles College on February 20<sup>th</sup>. A call for proposals will need to be sent out soon.
  - T. Matlin asked for feedback on the draft of the call for proposals.
  - A. Sanchez suggested adding how assessment.
  - T. Matlin described Liberal Education and America's Promise. Adopted by Southern California, it recommends High Impact Practices (HIPS), the theme for SCIL Works 2015.
  - There was some discussion about HIPS through established programs as well as through practice. Some examples of established programs include first-year experience programs and Common Read (One Book) programs among others.
  - SCILWorks is usually a 1/2 day conference that includes an hour-long presentation followed by lightning round presentations.
